RADITA NUR ILMAH FAUZIYYA

085794321544 | raditanur83@gmail.com | https://www.linkedin.com/in/raditanif/
Sukabumi, West Java

Software Engineer experienced in backend and frontend development, API integration, Augmented Reality/ Virtual Reality, and 3D development.

Work Experiences

PT. Arranet Indonesia Sejahtera - **Jakarta** Aug 2023 - Present

Software Engineer / Product Development

Financial technology (fintech) company providing digital payment system services and Agent Network Manager (ANM) which focuses on expanding financial access

- Develop backend services for financial transaction platforms using C# and .NET.
- Design and implement REST APIs for Mini ATM EDC services and digital payment integrations.
- Develop web applications using React.js for frontend and multiple backend technologies including .NET, Node.js, and Laravel, depending on project requirements.
- Build and maintain scalable systems that support high-volume financial transactions.
- Developed a BI-FAST disbursement system enabling bulk salary transfers to thousands of recipients in a single execution, significantly improving operational efficiency.
- Integrate multiple third-party billing systems including:
  - Property tax (PBB) payments
  - BI-FAST fund transfers
  - Mobile airtime and data services
  - E-wallet top-ups and digital payment services
- Implement unit testing using NUnit and Moq to improve system reliability and maintainability.
- Collaborate with clients, partners, and internal teams to ensure smooth system integration and project delivery.
- Frequently work across different technology stacks depending on project needs, including .NET, React, Node.js, Laravel, and Kotlin.
- Currently expanding mobile development knowledge using Kotlin for e-money applications.

Kodland - **Jakarta** Aug 2023 - Present

Digital Arts Pro Tutor

A technology education platform offering courses in coding, design, and digital arts for children and teenagers

- Taught digital design to students ranging from elementary to high school level through private classes (1 student), premium small groups (4 students), and regular group classes of 10–15 students.
- Delivered structured lessons in 2D and 3D digital design, utilizing Photopea for graphic design, Tilda for web design, and Blender for 3D modeling.
- Guided students through hands-on projects to strengthen technical skills, creativity, and confidence in producing original work.
- Adapted teaching approaches based on class size and individual learning needs to support optimal student progress.
- Combined structured instruction with practical application to foster both technical understanding and artistic development.

PT. Amerta Indah Otsuka - **Sukabumi, West Java** Jun 2022 - Jun 2023

Application Developer & Web Developer Intern

A company engaged in the food and beverage industry

- 3D Applications:
  - Developed an e-training application featuring Genset Operation Work Instructions.
  - Created a Digital Twin Boiler application for employee learning, including real-time simulation features.
  - Built Augmented Reality (AR) and Virtual Reality (VR) applications to introduce and educate employees about company products and boiler systems.
  - Designed 3D objects using Blender and developed AR/VR functionality using Unity.
- Web Applications:
  - Developed web- based features that enable employees to submit requests, suggestions, and feedback to the Engineering Development team.
  - Digitized the Access Area Visitor system, replacing manual guest books with a digital platform to manage visitor data and generate detailed reports.
  - Designed and developed web applications using JavaScript and React.js.

IPB University - **Bogor, West Java** Jun 2021 - Aug 2022

Research Assistant (LPDP Research Project)

State Universities that produce innovations whose quality is recognized nationally and internationally

- Contributed to the development of non-invasive medical devices for hemoglobin and blood glucose measurement.

- Conducted device testing and data collection from multiple respondents.
- Assisted in research documentation and validation processes.

Vocational School, IPB University - **Bogor, West java** Aug 2021 - Dec 2021

Physics Lecturer Assistant

Skills education program oriented to the application of practical knowledge

- Assisted lecturers in delivering course materials and supervising laboratory sessions.
- Evaluated practicum reports for approximately 30 students.

Department of Physics, FMIPA IPB University - **Bogor, West Java** Feb 2021 - Apr 2021

Internship

One of the majors at the Bogor Agricultural Institute that realizes higher education in the field of professional physics

- Developed a non-invasive hemoglobin measurement device using Raspberry Pi.
- Built two prototypes achieving RMSE values of 1.93 and 1.99.
- Project was recognized for its potential in further research development.

Education Level

Vocational School, IPB University - **Bogor, West Java** Jul 2018 - Aug 2021

Diploma in Computer Engineering, 3.86/4.00

- Honors: Cum Laude.
- Scholarships:
  - PPA Scholarship (Jan – Jun 2019), awarded by the Ministry of Research, Technology, and Higher Education (Kemenristek DIKTI) – External.
  - Bank Indonesia Scholarship (2020), awarded for the Diploma Program – Internal.
- Actively participate in 10+ campus events, including webinars, faculty-led research, technical skills training, and campus organizations.
- Final project: Developed a non-invasive hemoglobin measurement device based on Raspberry Pi, conducted in collaboration with the Department of Physics, IPB.

Skills, Achievements & Other Experience

- **Soft Skills** : Analytical thinking, critical thinking, logical reasoning, leadership, teamwork, discipline, systematic approach, problem-solving, time management, attention to detail, and strong planning abilities.
- **Hard Skills** : Programming & Development: C#, .NET / ASP.NET Core, REST APIs, Unit Testing (NUnit, Moq), Laravel, HTML, CSS, PHP, JavaScript, TypeScript, React, Node.js, Express.js, NestJS, Kotlin. Database: SQL Server, PostgreSQL, MySQL, Sequelize. 3D & Immersive Technology: Blender 3D, Unity, Augmented Reality (AR), Virtual Reality (VR). Tools: Microsoft Office, Canva, Material UI, Trello, Git, Postman. Languages: English – Working Proficiency
- **Online Course** : HTML, CSS, & JavaScript (2020), English course (2020), Data Engineer (2022), Learn How to Analyze Data for a Database Analyst (2022), Introduction to ASP.NET (Core, MVC, and EF) (2024), Unit Testing for C# Developers (2024), Data Warehouse – The Ultimate Guide (2025). Self-Paced Microsoft Azure AI Fundamentarls: Microsoft AI-900T00-A (2025)
