Sukabumi, West Java

Full-stack Software Engineer with experience in developing financial transaction systems using C#, .NET, REST APIs, and payment integrations including BI-FAST and e-wallet services. Skilled in building scalable backend and frontend applications using .NET, React.js, and Node.js, with additional experience in AR/VR and 3D application development.

Professional Experiences

PT. Arranet Indonesia Sejahtera - Jakarta (Remote/WFH)

Aug 2023 - Present

Software Engineer / Product Development

Financial technology (fintech) company providing digital payment system services and Agent Network Manager (ANM) which focuses on expanding financial access

- Develop backend services and REST APIs for financial transaction platforms using C# and .NET.
- Build scalable applications supporting high-volume digital payment transactions and Mini ATM EDC services.
- Develop frontend and backend applications using React.js, .NET, Node.js, and Laravel based on project requirements.
- Develop BI-FAST disbursement systems enabling bulk salary transfers to thousands of recipients in a single execution.
- Integrate 4+ third-party payment and billing services, including BI-FAST, PBB, mobile airtime/data, and e-wallet services.
- Implement unit testing using NUnit and Moq to improve system reliability and maintainability.
- Collaborate with clients, partners, and cross-functional teams to ensure successful system integration and project delivery.
- Participated in SIT/ UAT testing, issue analysis, troubleshooting, and coordination with internal teams and partners during project implementation.
- Contribute to M3P mobile application development using TypeScript and the existing project framework.

Kodland - Remote/WFH

Aug 2023 - Present

Digital Arts Pro Tutor

A technology education platform offering courses in coding, design, and digital arts for children and teenagers

- Taught 2D and 3D digital design to students in private and group classes.
- Delivered hands-on learning using Photopea, Tilda, and Blender.
- Adapted teaching methods based on student needs and class sizes.

PT. Amerta Indah Otsuka - Sukabumi, West Java

Jun 2022 - Jun 2023

Application Developer & Web Developer Intern

A company engaged in the food and beverage industry

- Developed multiple 3D, AR/VR, and web applications for employee learning and operational support.
- Built Digital Twin Boiler and e-training applications with simulation and interactive learning features using Unity and Blender.
- Developed internal web systems using JavaScript and React.js to improve operational workflows and visitor management.
- Contributed to projects showcased internationally at Hannover Messe 2023 in Hannover, Germany.

IPB University - Bogor, West Java

Jun 2021 - Aug 2022

Research Assistant (LPDP Research Project)

State Universities that produce innovations whose quality is recognized nationally and internationally

- Contributed to the development of non-invasive medical devices for hemoglobin and blood glucose measurement.
- Conducted device testing and data collection from multiple respondents.
- Assisted in research documentation and validation processes.

Vocational School, IPB University - Bogor, West java

Aug 2021 - Dec 2021

Physics Lecturer Assistant

Skills education program oriented to the application of practical knowledge

- Assisted lecturers in delivering course materials and supervising laboratory sessions.
- Evaluated practicum reports for approximately 30 students.

Department of Physics, FMIPA IPB University - Bogor, West Java

Feb 2021 - Apr 2021

Internship

One of the majors at the Bogor Agricultural Institute that realizes higher education in the field of professional physics

- Developed a non-invasive hemoglobin measurement device using Raspberry Pi.
- Built two prototypes achieving RMSE values of 1.93 and 1.99.
- Project was recognized for its potential in further research development.

Education

Vocational School, IPB University - Bogor, West Java

Jul 2018 - Aug 2021

Diploma in Computer Engineering, 3.86/4.00

- Honors: Cum Laude.
- Scholarships:
 - PPA Scholarship (Jan – Jun 2019), awarded by the Ministry of Research, Technology, and Higher Education (Kemenristek DIKTI) – External.
 - Bank Indonesia Scholarship (2020), awarded for the Diploma Program – Internal.
- Actively participate in 10+ campus events, including webinars, faculty-led research, technical skills training, and campus organizations.
- Final project: Developed a non-invasive hemoglobin measurement device based on Raspberry Pi, conducted in collaboration with the Department of Physics, IPB.

Organizational Experience

GenBI IPB - Bogor, West Java

Jan 2021 - Dec 2021
